wohoo....another year has almost passed, and in ~ 5 months we can celebrate suck-o's 10th birthday (expect a nice lottery with sweet prizes)!

sooo...let's see what happened in 2014:

- suck-o was succesfully DDoS'd
- b_b got arrested by the ACLU
- successful DMCA complaints against suck-o
- maboroshi finally stopped being a Python weirdo
- cats got fired
- lilrofl started brewing non-alcoholic beer
- thuggy lost his passport/laptop LESS than 10 times
- reparto wasn't much on IRC

erm...ok...not much happened. as usual. damn.
